CAREER SUMMARY

Dynamic BE student with a strong interest in cloud computing, poised to embark on a career as a Cloud Computing Professional. Proficient in AWS, Microsoft Azure, and Google Cloud Platform, with hands-on experience in deploying, managing, and optimizing cloud-based solutions. Skilled in virtualization, containerization, and infrastructure as code (IaC), adept at architecting scalable and resilient cloud architectures. Familiar with automation tools. Possess excellent problem-solving abilities, effective communication skills, and a collaborative mindset, enabling seamless interaction with cross-functional teams. Committed to staying updated with the latest advancements in cloud technologies and eager to contribute to transformative projects. Aiming to leverage technical expertise and enthusiasm for cloud computing to drive innovation and success in a dynamic professional environment.

SKILLS AND STRENGTHS

- **Skill 1** - Strong problem-solving abilities: Ability to troubleshoot issues and find effective solutions.
- **Skill 2** - Excellent communication skills: Clear communication with team members, clients.
- **Skill 3** - Proficiency in cloud platforms: AWS, Microsoft Azure, Google Cloud Platform, etc.
- **Skill 4** - Experience with automation tools: Terraform, Ansible, Chef, Puppet, etc.
- **Skill 5** - Familiarity with scripting and programming languages: Python, PowerShell, Bash
- **Skill 6 -** Collaboration: Ability to work effectively in a team environment and collaborate on projects.
- **Skill 7 -** Understanding of networking concepts: TCP/IP, DNS, VPNs, etc.

PROFESSIONAL ACCOMPLISHMENTS

- For BE Degree:-
  - Graduated with distinction in Bachelor of Engineering With 7.56 CGPA.
  - Led a team project on cloud computing, designing and implementing a scalable solution.
  - Actively participated in coding competitions, winning awards for problem-solving skills.

- For Post-Graduation in Cloud Computing :-
  - Developed and implemented a cloud-based infrastructure solution for a medium-sized company, resulting in a 30% reduction in IT infrastructure costs.
  - Completed AWS Certified Solutions Architect certification, demonstrating proficiency in designing and deploying scalable, secure, and reliable applications on AWS.
  - Participated in industry conferences and workshops, staying updated with the latest trends and advancements in cloud computing.
  - Received recognition for outstanding performance in a cloud computing project during post-graduate studies, earning praise from professors and industry experts.

EDUCATION

Bachelor of Engineering in Information Technology, Graduation Year (2023), LDRP- ITR, INDIA
Post Graduate in Cloud Computing , Graduation Year(2024), Humber College, Toronto, CA
